Stevie,
No samples to R9 or NAREL. The COCs were everything shipped yesterday.

I understand that you have not received the cooler shipped to OASQA. I'm going to track the status on Fedex.

Gene,

Were any samples sent to Region 9 for the dissolved gases, DRO and GRO?
Were samples sent to NAREL for the radiological?

Stevie, Kevin:

Attached are all the F2L COCs sent to date, including the Tier IV. The Tier IV's all begin with '17'. I will notify the Tier IV labs.

Special Note: One sample for MBAS was collected too late to ship on Monday and was shipped to be delivered today. So please advise R2 that the Monday sample is/will be close to the hold time and will need to be analyzed ASAP.

Thanks. Hopefully they can get these out earlier tomorrow.

Gene –

We don't have a scanner. So here are .pdfs of the F2L TRs.

- TRs starting w/ "17" are Tier IV.
- All others are EPA Labs, beginning with the last two digits of the respective DAS No.
- R2 Lab needs to get on the MBAS samples shipped in order to meet HT.

Notes:

- FB01 MBAS was inadvertently unassigned from the "in-cooler" TR012412-0002 while overcoming a glitch in F2L. It was re-assigned to ...012412-0006 (attached). Hard copy of0002 to be forwarded when it can be scanned.
- FB01 Bacteria was inadvertently unassigned from the "in-cooler" TR012312-0001 while overcoming a glitch in F2L. It was re-assigned to ...012412-0007 (attached). Hard copy of0001 to be forwarded when it can be scanned.
- FB01 Bacteria was inadvertently unassigned from the "in-cooler" TR012312-0001 while overcoming a glitch in F2L. It was re-assigned to ...012412-0007 (attached). Hard copy of0001 to be forwarded when it can be scanned.
- FB02 Bacteria was inadvertently unassigned from the "in-cooler" TR012412-0003 while overcoming a glitch in F2L. It was re-assigned to ...012412-0007 (attached). Hard copy of0003 to be forwarded when it can be scanned.

Please review and call with questions. Could you please send on to Ft. Meade as shipment notification?

Thanks,
